

and go pacific waters and are normally found in warm waters. They're depths are 200-1,500 meters (656-4,921 feet). They can be up to 6 1/2 inches long and 16 centimeters. My name is Paige and I love dragons. I wanted to do this competition because my older sister won first for our school and first in Dodge County and third in state last year competition. She inspired me to join this competition and I don't expect to win. I'm only in 6th grade and I'm doing this to have fun.
